

## Distance-Based Pricing Exceptions List (Local and Regional Designations)

From anywhere... to anyone

Posted January 16, 2012

Effective January 16, 2012

Customers using the Letter Carrier Presort (LCP) mail preparation option to mail their Publications Mail items require the assistance of the Software Evaluation Recognition Program (SERP) presortation software.

This software is programmed with Local, Regional and National designations, as defined in [section 5 “Pricing” of “Publications Mail™ – Customer Guide”](#) along with the exceptions (as listed below) to the “Local” and “Regional” definitions.

This list is for information only and may change without notice.
