Service Overview

Neighbourhood Mail™

Effective January 14, 2019

# Important Updates

When the document is amended or revised, the version number will be modified as follows:

- an amendment increases the first digit in the version (e.g., version 3.0)
- a revision increases the second digit in the version (e.g., version 1.1, 1.2)
- the version number restarts at 1.0 every January of a given year.

Neighbourhood Mail™ - Service Overview

PURPOSE OF THIS SERVICE OVERVIEW

This Service Overview is an outline of the Canada Post’s Neighbourhood Mail™ Customer Guide available at canadapost.ca/cpnmguides.

The Customer Guide forms part of the Agreement between you, the customer, and Canada Post. It explains the qualifications and other terms and conditions under which this service is provided. Be sure to use the most current version of the Customer Guide, including all amendments and other documents, which help you meet the requirements in the Agreement.

Some words and expressions in this document and the Agreement have specific meanings. See Paying and Terms module, General Terms and Conditions, Section 1 “Definitions” or the Glossary for definitions.

SERVICE OVERVIEW

The Service Overview summarizes key information such as qualifying criteria, options, delivery standards, pricing, designing and mail preparation.

1 WHAT IS NEIGHBOURHOOD MAIL SERVICE?

Neighbourhood Mail is one of our targeted direct mail services. It consists of printed and non-printed matter such as product samples that are not addressed to specific addresses in Canada. The service provides the delivery of information and/or advertising material to more than 15.7 million mailboxes. Neighbourhood Mail provides geographic, demographic and lifestyle information to target mailings to neighbourhoods or areas that have the highest potential audience – without a customer database.

By using Canada Post’s database, Statistics Canada data and a combination of other data sources, the Neighbourhood Mail service provides unsurpassed coverage of both urban and rural markets.

1.1 What is acceptable as Neighbourhood Mail?

Items must be unaddressed but may bear wording, such as “HOUSEHOLDER”, “OCCUPANT”, “RESIDENT”, “BUSINESS OWNER”, “MARKETING MANAGER”, “PURCHASING MANAGER” or “BOXHOLDER” without a destination address. Multiple formats are acceptable. Some examples are:

- brochures
- community newspapers
- flyers
- cards
- co-op mailings
- inserts and enclosures
- catalogues
- coupons
- magazines
- CDs and DVDs
- envelopes
- newspapers
- samples
- single sheets

To qualify as Neighbourhood Mail service, mailings must:

- be mailed in Canada for delivery in Canada
- meet the minimum volume requirements:
  - the complete distribution of one route; or
  - the complete distribution to only houses, apartments, farms, businesses, or any combination, on a given route.

1.2 What is unacceptable as Neighbourhood Mail?

Items submitted as Neighbourhood Mail that do not meet the requirements specified for Neighbourhood Mail and the various mail preparation and other requirements outlined in this Agreement, may not qualify for Neighbourhood Mail service and prices. For information on unacceptable items, see Non-mailable Matter of the Canada Postal Guide at canadapost.ca/nonmailable or refer to the Canada Post Corporation Act and Regulations.
1.3 Delivery standards

Delivery standards are estimates of how long it will take for the mail to be delivered from the deposit location to the mail recipient. Delivery standards will vary based on the options selected (i.e., Canada Post transportation and physical characteristics). Delivery standards are not guaranteed. Visit canadapost.ca/transportationtime for more detail.

Delivery standards are comprised of two components, transportation time and delivery cycle, which added together determine the delivery standard.

<table>
<thead>
<tr>
<th>Definitions</th>
</tr>
</thead>
<tbody>
<tr>
<td>Transportation Time</td>
</tr>
<tr>
<td>Delivery Cycle</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Transportation Time</th>
<th>LOCAL*</th>
<th>PROVINCIAL</th>
<th>NATIONAL**</th>
</tr>
</thead>
<tbody>
<tr>
<td>2 business days</td>
<td>3 - 4 business days</td>
<td>3 - 7 business days</td>
<td></td>
</tr>
</tbody>
</table>

* Within major centres, local means the geographic area served by the main Canada Post facility of that major centre. When Neighbourhood Mail items are deposited at this facility, the transportation time applies to moving the items to the other facilities within that geographic area. In all other areas (e.g., rural), local means the specific delivery office from which the items will be delivered.

** Excludes non-major urban centres, northern regions and remote areas.

Category | THICKNESS | WEIGHT | DELIVERY CYCLE* |
<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Standard and Oversize</td>
<td>up to 0.75 in. (1.91 cm)</td>

<td>up to 3 business days</td>
</tr>
<tr>
<td></td>
<td>up to 1 in. (2.54 cm)</td>
<td>up to 300 g (10.58 oz.)</td>
<td>up to 4 business days</td>
</tr>
<tr>
<td></td>
<td></td>
<td>up to 500 g (17.64 oz.)</td>
<td>up to 9 business days</td>
</tr>
</tbody>
</table>

* For non-letter carrier routes, the delivery cycle, in business days, is 1 day for items up to 500 g (17.64 oz.) and 3 to 5 days for items up to 1,000 g (35.3 oz.) with a maximum thickness of 1.5 in. (3.81 cm).

Delivery standards are calculated from the day of deposit (day 0) plus the number of business days required for delivery. The number of days excludes the day of the mailing, weekend and statutory holidays. Weekend and statutory holiday deposits are considered deposited on the following day.

You can consult the residential and business delivery area counts and maps at canadapost.ca/precisiontargeter to determine which delivery mode applies to your mailing.

For detailed information, visit Delivery Standards of the Canada Postal Guide.

1.4 Service features

A feature is provided as part of the basic service.

1.4.1 Consumers’ choice

You can target more effectively by respecting the wishes of consumers who indicate that they do not wish to receive unaddressed material.

When a Canadian opts into Consumers’ Choice, we will continue to deliver:

- Community newspapers (see the Creating an Order module, Section 1.5.1)
- Mailings in the public (as opposed to commercial) interest from government departments/agencies at federal, provincial, territorial, municipal levels and band councils
- Materials from Elections Canada, provincial/territorial chief electoral officers and municipal election officials (or the deputy returning officer), including material from political parties and electoral candidates during an election.

Visit our Householder Data at canadapost.ca/precisiontargeter for the breakdown of delivery points with and without these notices.
1.5 Service options

An option is a service enhancement that is not included in the basic service.

1.5.1 TRANSPORTATION

If you wish to deposit the entire mailing at a single deposit location, we will transport your items to the delivery office(s) for a fee. There is no transportation fee when you transport your items directly to the appropriate delivery facility(ies).

1.5.2 SPECIFIED DELIVERY START DATE

If you wish to specify a delivery start date for your entire mailing (i.e. begin delivery on the same day in all delivery installations), you must select this option when you create your Order in EST.

For specific deposit requirements, see the Depositing module, Section 1.1 “When to deposit”.

1.6 Undeliverable Neighbourhood Mail items

We will either dispose of or recycle Undeliverable Neighbourhood Mail items at our discretion. Consult the Undeliverable Mail section of the Canada Postal Guide for more detail.

DATA AND TARGETING

2 DATA AND TARGETING

The Data and Targeting module provides a more in-depth look at Canada Post Data and Targeting Solutions as a component of Smartmail Marketing™. We recommend using data so you can target top customers/prospects, get your brand directly into the right hands, and boost response rates in a cost-effective way.

2.1 Who can I target?

You can target specific geographically defined areas in Canada, either local or national. You may direct the message to an area as small as a single postal route, and target the message to homes, apartments, farms or businesses, or any combination of the four.

Target areas may include multiple types of points of call. For example, you can maximize their reach of home owners by selecting farms and homes on a targeted postal route.

2.1.1 RESIDENTIAL AND BUSINESS DELIVERY AREA COUNTS AND MAPS

Delivery areas served by our delivery offices are segmented by houses, apartments, farms and business points of call (which are defined below) to help you determine the number of items you need for your mailing.

<table>
<thead>
<tr>
<th>HOUSEHOLDER TYPE</th>
<th>DESCRIPTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>Houses:</td>
<td>Include residential dwellings that may be: detached, semi-detached or attached in a row. These dwellings have separate entrances and may be horizontal (in a row) or vertical (one on top of the other). If a business is operated from a house that is also a residence, the point of call is classified as a house.</td>
</tr>
<tr>
<td>Apartments:</td>
<td>Include self-contained residential units within a high-rise or low-rise multiple-unit building of three or more such units with a common main entrance to the building. If a business is operated from an apartment which is also a residence, the point of call is classified as an apartment.</td>
</tr>
<tr>
<td>Businesses:</td>
<td>Include buildings and structures where the primary activity is commercial, industrial or institutional (which includes but is not limited to churches, hospitals, nursing homes, and schools). If a business is operated from a house or apartment which is also a residence, it is classified as a house or apartment.</td>
</tr>
<tr>
<td>Farms:</td>
<td>Include residential and business buildings associated with land (e.g. fields) used to grow crops, raise animals or fish.</td>
</tr>
</tbody>
</table>

Visit canadapost.ca/precisiontargeter to view the residential and business delivery area counts and maps.
2.2 Targeting solutions and tools

Our targeting solutions and tools can help you find your target audience and reach your ideal customers.

<table>
<thead>
<tr>
<th>Targeting Solutions and Tools</th>

</tbody>
</table>

Qualifying customers may have access to lower prices by signing an Agreement. All prices are subject to applicable rebates, discounts, fees, surcharges, adjustments and taxes.

More information can be found in the Pricing module at canadapost.ca/cpnmguides.
4 Designing Neighbourhood Mail

To be eligible for Neighbourhood Mail service, the items mailed must meet the eligibility criteria related to content, format and physical characteristics.

4.1 Measurements - Size and weight

Neighbourhood Mail items must meet the following size and weight requirements.

Dimensions include inserts and enclosures. Imperial equivalents are provided for your convenience.

<table>
<thead>
<tr>
<th>Design / Item</th>
<th>Length</th>
<th>Width</th>
<th>Thickness</th>
<th>Weight</th>
</tr>
</thead>
<tbody>
<tr>
<td>Standard and Oversize</td>
<td>min.</td>
<td>10.85 in² / 70 cm² area</td>
<td>0.007 in. (0.18 mm)</td>
<td>N/A</td>
</tr>
<tr>
<td>Standard</td>
<td>max.</td>
<td>12 in. (30.50 cm)</td>
<td>6 in. (15.24 cm)</td>
<td>1 in. (2.54 cm)**</td>
</tr>
<tr>
<td>Oversize</td>
<td>max.</td>
<td>12 in. (30.50 cm)**</td>
<td>11 in. (28.00 cm)</td>
<td>1 in. (2.54 cm)**</td>
</tr>
</tbody>
</table>

* The thickness of a Neighbourhood Mail item must be measured at the thickest area of the item.

** The dimensions for non-letter carrier routes are: No minimum dimension requirements. The maximum dimensions are length 14 in. (35.56 cm), width 11 in. (28.00 cm), thickness 1.5 in. (3.81 cm) and weight 1,000 g (35.3 oz.).

Non-Letter Carrier delivery routes include: RR (rural routes), SS (suburban services), GD (general delivery), LB (lock boxes), CF (call for), MR (motorized routes) and DIR (directs).

4.2 Enclosures and attachments

<table>
<thead>
<tr>
<th>Enclosure and Attachment</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Samples</td>
<td>A sample consists of non-printed matter, or a trial size portion of an actual product. It may be distributed on its own, attached, or enclosed in an envelope with or without printed matter. A sealed envelope may contain a single sample or multiple samples. The customer will be charged based on the overall weight of the item, including the sample(s). Some restrictions apply. For instance, CDs and DVDs are not acceptable in hard jewel cases but they can be mailed using soft plastic cases such as DVD movie cases. Ensure each item, including any sample(s), is mailable and consider the following: 1. If it contains a scented item, it is to be sealed in such a manner that prevents the scent from escaping. Similarly, liquids and powders must be appropriately packaged. However, if it contains a scented item produced using micro-encapsulated scent infused ink/lacquers, it does not need to be sealed provided the scented patch is covered or contained within the mailed item. 2. If it contains a common allergen item such as peanuts, sesame seeds, tree nuts (e.g. almonds, walnuts) or eggs, it is to be packaged properly and labelled to minimize the potential for allergic reactions.</td>
</tr>
<tr>
<td>Inserts</td>
<td>Inserts can be placed in a newspaper, magazine, catalogue, envelope or self-mailer. To be acceptable the inserts must be attached, enclosed or folded into the Neighbourhood Mail item in order to become an integral part of the item and not become separated during normal handling of the mail. You must perform a pinch test to confirm that an insert is an integral part of an item. How to perform the “pinch test”: Place the middle of the item’s fold (or spine) in the palm of your hand, between your thumb and fingers. Grasp the item tightly, and shake it back and forth (horizontally) with its open end facing downward. If the inserts become separate during this test, the item is not acceptable and must be reworked by the customer, who can do one of the following: • enclose the item, including inserts, within a “plastic” wrapper or envelope (also referred to as a polybag) • affix stickers, tape or tabs to the top and bottom open edges of a folded item, or on the open edge opposite the fold, or on all the open edges • enclose the inserts into a newspaper by enclosing all inserts within one insert or wrapper to create one spine and then placing the insert package within one quadrant of the newspaper, ensuring the spine of the insert is facing the outside edge of the newspaper • place the inserts within the pages of the item and then fold the item to form a common fold • if there are two sections to the item, place the insert between the two sections and then fold the item to form a common fold • staple the inserts, provided that the staples are enclosed or covered in a manner that prevents exposure during normal handling • glue the inserts, provided that both the glue and the paper are strong enough to retain the insert within the item.</td>
</tr>
</tbody>
</table>
4.3 Creative options

The following creative options may increase response rates of your direct mail campaigns. Consider these guidelines when you are creating an item. A Canada Post representative or partner would be happy to work with you to ensure your item meets our requirements.

<table>
<thead>
<tr>
<th>Options</th>
<th>Requirements</th>
</tr>
</thead>
<tbody>
<tr>
<td>Enclosures and attachments</td>
<td>Inserts such as samples, magnets and Business Reply Mail can be placed in a newspaper, magazine, catalogue, envelope or self-mailer. See the Designing module for requirements.</td>
</tr>
<tr>
<td>Die-Cut mail</td>
<td>We require a minimum of 7-point card stock to prevent the item from bending. Items can be non-printed matter such as rubber, plastic, laminate, vinyl, leather or wood (subject to testing and approval).</td>
</tr>
<tr>
<td>Application of tip-ons</td>
<td>Must be firmly affixed with glue and not separate from the item during processing. Lie flat on the item and if magnetized, must be weak enough to be handled without de-magnetizing the contents of other items (e.g. credit cards).</td>
</tr>
<tr>
<td>Repositionable notes (RPN)</td>
<td>Must be applied with a glue strip that must be a minimum of a third (1/3) of the total width of a repositionable note (e.g. 26 mm wide for a 76 mm label).</td>
</tr>
</tbody>
</table>
| Scented admail items   | Acceptable criteria:  
|                        | • Unsealed mail items containing micro-encapsulated inks and lacquers. To prevent premature release of the scent, the scented patch must be covered or contained within the mail item.  
|                        | • Sealed mail items containing scents that are not micro-encapsulated inks and lacquers. |
| Variable printing      | Items that contain variable printing, such as different offers or business locations, and do not require specific delivery instructions, are acceptable for delivery provided that the item’s customer identification, physical dimensions, and advertised products or services remain the same. These items will be distributed at random and do not have special bundling and labelling requirements. |

**NOTE:** To be eligible the items mailed must meet the criteria for the Neighbourhood Mail service and be prepared for mailing in ways that prevent loss or damage and each item to be easily verified.

More information can be found in the Designing module at [canadapost.ca/cpnmguides](http://canadapost.ca/cpnmguides).
The following is a summary of the key requirements when you create an order.

</tr>
<tr>
<td><strong>Partial Mailing or Downstream Deposits</strong></td>
<td>Optional</td>
</tr>
</tbody>
</table>

Detailed information can be found in the Creating an Order module at canadapost.ca/cpnmguides.

### 5.1 Community newspapers

In order to be considered a community newspaper, the item must:

- be a newspaper
- meet the Neighbourhood Mail size and weight specifications
- contain a maximum ratio of 70% advertising, including all enclosures, to 30% news/editorial/community notices content
- be published not more than three times a week
- serve the community in which it is published through its news and editorial content, and this news and editorial content must be relevant to any other communities to which the paper is distributed as a community newspaper and not as a newsletter, and
- not be a newsletter intended for a special interest group or consist of a printed sheet or pamphlet containing news or information.

If the content requirement is not met, the item may qualify as Neighbourhood Mail, but is not considered as an exemption from Consumers’ Choice Program (i.e., the item will not qualify for Total Points of Call).

### 5.2 Parliamentary mailings using Neighbourhood Mail

Parliamentary mailings using Neighbourhood Mail may be used by members of the House of Commons to send printed matter to constituents, free of charge, up to four times in a calendar year. These mailings must consist of printed matter only. Members of the House of Commons are entitled to Parliamentary Neighbourhood Mail beginning on the day that their election to the House is announced in the *Canada Gazette* and up to 10 days after they leave office. All mailings must be mailed in Ottawa through the House of Commons Post Office. Additional mailings, after the first four mailings, are subject to the applicable price. Contact a Canada Post representative to obtain prices.

### 6 Mail Preparation

Proper mail preparation is important to ensure that we can process and deliver your mailing efficiently. You are responsible for meeting all the applicable requirements.

**Mail preparation** is the process of preparing your mail, by securely bundling items and labelling containers and shipping units.
The following is a summary of the key requirements for preparing your mailing.

### Standard and Oversize Requirements

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Standard</th>
<th>Oversize</th>
</tr>
</thead>
<tbody>
<tr>
<td>Maximum height of each bundle</td>
<td>6 in. (15.24 cm)</td>
<td>8 in. (20.0 cm)</td>
</tr>
<tr>
<td></td>

</tr>
<tr>
<td>Labelling shipping units</td>
<td>Mandatory</td>
<td></td>
</tr>
<tr>
<td></td>
<td>(We recommend that the Order (Statement of Mailing) number be written on the labels.)</td>
<td></td>
</tr>
</tbody>
</table>

We supply equipment, depending on conditions and availability. When our equipment is not available, you must supply and use containers that we have pre-approved (e.g.: cardboard boxes) and/or pallets must be used.

Detailed information can be found in the Preparing module at canadapost.ca/cpnmguides.

---

## Depositing

### Required at Time of Deposit

Each Order (Statement of Mailing) must be accompanied by:

- two printed copies of the electronically prepared and transmitted Order (Statement of Mailing) or the original of a manually prepared Order (Statement of Mailing)
- sample(s) of the item, including all enclosures, attachments and wrapping, identical to the item being mailed.

You are not required to complete an Agreement but must fill out an Order (Statement of Mailing) for each deposit. Your signature on the Order confirms that you have acknowledged and read the Terms and Conditions on the back of the paper Orders or included with the electronic Order.

You are required to provide a copy of the Order (Statement of Mailing) to an authorized Canada Post representative at every deposit location (i.e., RVU and CDC) at the time of mailing or before transporting the items to a delivery facility.

### Where to deposit

All items must be deposited with an authorized representative at the deposit location selected on the Order (Statement of Mailing). Items cannot be deposited in street letter boxes or other mail receptacles.

Daily maximum volumes of mail apply for certain types of deposit locations.

<table>
<thead>
<tr>
<th>Receipt Verification Unit (RVU)</th>

<td>3 shipping units**</td>
<td>7 shipping units**</td>
</tr>
<tr>
<td></td>
<td>(monotainers/pallets)</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

---

* This location type is not equipped to process mail received in monotainers or pallets that are double-stacked.

** A monotainer can accommodate approximately 48 letterflatainers (LFTs) (40 letterflatainers with lids) or 24 Flats tubs.

*** Not applicable for mailings requiring transportation to another delivery facility.

**NOTE:** Parliamentary mailings must be deposited in Ottawa at the House of Commons Post Office.

The Find a Deposit Location tool is available at canadapost.ca/depositlocations to help you identify the right deposit location for your mailing based on Postal CodeOM1, mail type and quantity. The tool will provide you more helpful information, such as the deposit location address and deposit location cut-off times.

Items deposited after the deposit location cut-off times will be considered deposited on the next business day.

Detailed information can be found in the Depositing module at canadapost.ca/cpnmguides.
